La collezione Outdoor interpreta la volontà di MDF Italia di proporre sistemi di arredo più che mai completi, integrati e versatili, capaci di diversificare e scolpire l'identità di ogni ambiente all'aria aperta. La svariata gamma dei piani d'appoggio offre una risposta per ogni occasione: dai grandi tavoli da pranzo a tavolini da caffè essenziali e funzionali. Anche le sedute abbracciano l'intero spettro di possibilità: sedie da tavolo, sgabelli alti, oltre a comode poltrone e divani. Inconfondibile, il tratto stilistico di MDF Italia si distingue nell'outdoor, come nell'interno, per la proposta di soluzioni contemporanee e raffinate. La costante ricerca tecnica ed estetica ha portato quest'anno ad arricchire di innovativi materiali i prodotti esistenti, come le finiture in cemento granigliato di Rock Table nelle tinte ispirate ai colori della natura, o la nuova Flow Chair con base in legno Iroko. Inoltre, si aggiungono alla collezione nuovi sorprendenti prodotti: i divani Arpa che richiamano l'elegante strumento musicale, l'iconica Flow Filo in fili d'acciaio verniciato, la sedia e la poltroncina Neil Twist che coniugano sapiente artigianalità e sofisticata tecnica. La collezione "Novelties Outdoor 2020" è il risultato dell'unione di semplicità e tecnica in un unico tratto, quello distintivo di MDF Italia.

The Outdoor collection expresses MDF Italia's wish to offer furnishing systems that are more complete than ever – integrated, versatile and capable of diversifying and shaping the identity of each and every outdoor ambience. The versatile range of table tops has the answer to suit all occasions: from large dining tables to simple and functional coffee tables. Our chairs also embrace the entire range of possibilities: dining room chairs, tall stools, comfortable armchairs and sofas. The unmistakable MDF Italia stylistic features stand out both in the outdoor and indoor furnishings, thanks to the range of refined, contemporary options on offer. This year, ongoing technical and aesthetic research has enabled us to enhance existing products with innovative materials – for example, the stone chip cement in hues inspired by nature used for Rock Table, or the new Flow Chair with a base made of Iroko wood. The collection is further enriched by new and surprising products: the Arpa sofas recalling the elegant musical instrument (arpa is Italian for harp), the iconic Flow Filo made of painted steel wires, the Neil Twist armchair and chair that skilfully blend craftsmanship and sophisticated technique. The collection "Novelties Outdoor 2020" is the result of blending simplicity and technique in the distinctive MDF Italia trait.
